Education

Ahmednagar College, Ahmednagar

July '22 – May '25

Bachelor of Science (Computer Science) - GPA: 8.4

Relevant Coursework

- Software Engineering
- Object-Oriented Programming
- Database Management Systems

Internship

CodSoft

Feb'25 – March'24

JAVA Intern

- Developed and maintained Java-based applications using Object-Oriented Programming principles, improving code efficiency and application performance.
- Integrated MySQL database operations including CRUD functionalities to support dynamic application features.
- Performed testing and debugging to identify issues, enhance application stability, and improve overall system performance.

Project's

Packers & Movers Management | *Java (Servlets, JSP), MySQL, JDBC, JavaScript, Bootstrap*

March'26

- Developed a full-stack logistics booking system with dedicated modules for users, bookings, and drivers, enabling streamlined transportation and booking management.
- Implemented backend request processing and session handling using Java Servlets, ensuring efficient communication between frontend and server-side components.
- Designed a scalable and modular backend architecture with database integration, supporting seamless API connectivity and future feature enhancements.

House Price Prediction System | *HTML, CSS, JavaScript, Java Servlets, Machine Learning*

Dec'25 – Feb'26

- Developed a Linear Regression-based price prediction system to analyze datasets and improve prediction accuracy through model optimization techniques.
- Designed and implemented backend APIs using Java Servlets to handle client requests and integrate machine learning model outputs with the web application.
- Applied foundational Generative AI concepts and model-based response techniques to support intelligent and interactive application functionality.

QR Attendance System | *Core Java, SWING, JDBC, PostgreSQL*

Jun'25 – Nov'25

- Developed an automated attendance management system using QR code-based validation to streamline attendance tracking and improve operational efficiency.
- Integrated PostgreSQL for secure data storage, retrieval, and management of attendance records and user information.
- Implemented automated data processing and validation mechanisms to reduce manual errors and enhance data accuracy.

Technical Skills

Languages: JAVA, Python, HTML5, CSS3, JavaScript, MySQL

Frameworks/Tools: Java Servlets, JSP, JDBC, String Boot(Basics).

Tools/Platforms: Eclipse, VS Code, Apache Tomcat, Git, GitHub

Concepts: OOPs, DBMS, Data Structures, SDLC

Others: Communication, Problem-solving, Task Prioritization

Co-Curricular/Achievement

- Completed a **Java Bootcamp** by **LetsUpgrade**, gaining hands-on experience in **Core Java, OOP concepts**.
- Participated in **Code Clash at IIT Jodhpur**, showcasing problem-solving skills and competitive programming abilities in a high-level coding environment.
- Successfully completed **"Basics of Machine Learning Algorithms"** course by **UniAthena** in partnership with Cambridge International Qualifications.
